

# SHARE YOUR CAR & Free Yourself

## Free Yourself ...

- from the hassles and headaches of car ownership
- from insurance, maintenance and gas payments
- from the guilt of owning more vehicles than you really need

## And help bring carsharing to your neighborhood!

You own a car. But you try not to drive it much. But you're still paying to insure and maintain it. Why not share your car with your neighbors so we can all breathe a little easier and reclaim our streets? Imagine what your neighborhood would look like with 50% fewer cars. If you own a car that you drive less than 10,000 miles/year you could save a considerable amount of money by loaning it to carshare.
